Art Unit: 2834

Claims 12-16 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are vague indefinite and misdescriptive, or based on an inadequate disclosure. The claim appears to be directed to the embodiment of figs 16-18. However, there is no written description or illustration of a device wherein the finger over lap lengths are varied ("such that opposing portions of the first and second inter-digital electrodes are reduced in size as compared to the remaining ones---").

Claims 1-11 and 17-21 are allowed.

Further cited of interest are Kawakatsu, Abe, Edmonson, Endoh, Takamine and Strauss.
